Hi,

Firstly, a big thank you to the team that must have spent many hours putting together such a comprehensive statement. The statement in the main reflects my own views.

Whilst walking the lane from Trefonen to Pentre-Shannel this morning (21-02-2016) we noticed that at the junction of the roads to Pentre-Shannel and Pottery Cottages (OS ref 257 274)), a grassy triangle has been flattened, obviously deliberately. There is also increased erosion of the road verge on the stretch to Pentre-Shannel, and obvious damage to the stone hedge. I attach 4 photographs.

Regards,

Sally Barrett
