VDS 2016 comment

I would very much like to see the following words added to the draft 2016 document:

Trefonen - Housing

para 3.5.1

As an example of meeting need within the parameters described, the site of a derelict dwelling in Chapel Lane could be developed with a short terrace of three homes, with two/three bedrooms. They could be white rendered or stone-faced, with variable roof lines and staggered frontages.
